Dear NYC Opioid Overdose Prevention Programs,

I have some very exciting news! All OOPPs in NYC that order naloxone through DOHMH will now use **ONE** order form to order all supplies needed for complete naloxone kits, including:

1. Narcan Nasal Spray and/or intramuscular naloxone
2. Blue bags
3. Blue certificate of completion cards
4. Emergency Response booklets

Please see the new and improved form attached! When placing orders, please fill out the form on the computer, print, have your Clinical Director sign, then send it back to reports@health.nyc.gov.

A few things to note:

1. NYC OOPPs will no longer order any of the supplies listed above through www.nyoverdose.org. This website is still your go-to for requesting edits to your registration, viewing information about your program, submitting quarterly reports to the State Department of Health, and ordering any additional materials. The website also hosts several wonderful resources for implementing and maintaining your OOPP.
2. While we'll be *placing* orders for each of these items for you, blue certificate of completion cards and emergency response booklets will still be sent from the State Department of Health. We will cc you when we forward the order.
3. Blue bags are back in stock! There may be a slight delay in shipping them out as orders come in, but our distributors are hard at work getting them ready.
3. For those of you who have ordered intramuscular naloxone in the past—note that the syringe we will be providing is slightly different: the syringe will first need to be screwed on to the barrel before drawing up the medication. You can view a video about the new syringe here: <https://www.bd.com/en-ca/about-bd/video-gallery?video=4484089766001>

We sincerely hope this new reporting form will make your lives easier. As always, please feel free to reach out with any questions!
